

Saturday January 5th was an awesome day for L41! We had the chance to get out on the streets of downtown Woodstock and share the love of God chocolate style. That's right; L41 was handing out hot chocolate for free! Anyone who was interest was given a nice hot cup of cocoa. It was pretty cold outside so it was an awesome opportunity to give such a warm (pun intended) gift.

The teens were very excited about this event. They strolled up and down Dundas carrying their signs with pride while pointing in the direction of the hot chocolate stand. Some teens went up to cars sitting at red lights, some went into nearby businesses and some even went on the City buses to hand it out. All in all it was a blast and all the teens had something good to say about it. A BIG thanks goes out to Coffee Culture who helped supply us with the hot chocolate and cups! We wouldn't want to have used any other hot chocolate!

It definitely was an awesome chance to step out. But it doesn't end there. This is the start of something huge. This Saturday was just to get the teens' feet in the water and give them a taste (again pun intended) of what sharing the love of God is all about. L41 is planning on making a huge leap in their evangelism this year. Woodstock is going to be impacted in a big way!
